----- XXXXXX -----

Sir,

We are extremely glad to Welcome you to this place which is in the Malanad. We greatly appreciate your great desire to tour the nook and corner of the Malanad and find ways and means to improve the conditions of road communications and redress our grievances. We are cherishing great hopes ~~xxxxxxxxxxxx~~ ~~xxxxxxxxxxxx~~ that it might be brought home to you that the following speedy measures may be taken up for the development of Malanad area in general and Panja Centre in particular:-

1. The development of Dharbe-Subramanya road into an all-weather road- by constructing bridges and cause-ways over the various rivers and streams so that the vast produce of the villages may be transported for marketing them during all seasons. The road also should be broadened & straightened from mile 21/6 to 23/2 one and a half mile.
2. A pacca hospital at Panja may be immediately provided. A Hospital was proposed to Panja, but so far it has not materialized. The people are greatly suffering due to the lack of medical and maternity aids.
3. A road dam at Pulikukka, on the Kumardhara River in Kadaba-Panja Road, at a distance of two miles from Panja Board High School may be constructed, so that people and school children from the other side of the Kumardhara river may find access to Panja.
4. Our Panchayat Board has no office building of its own. It has got a cash balance of Rs.4,700-0-0 and odd and this is not enough to meet the expenses of the construction of an office-building at an estimate of Rs.10,000/- . So we request that half building grant i.e. Rs.5,000/- may be granted to this Panchayat Board.

MEMORANDUM presented by the Residents of:

- (1) Keminje, (2) Narimogar, (3) Shanthigodu,
(4) Mundur, (5) Sarve, (6) Punachapady,
(7) Savnur, (8) Kudmar, (9) Belandur, (10)
Kaimana, (11) Charvaka, (12) Kaniyur, (13)
Kodiala, (14) Murullia, (15) Dolpady, and
(16) Yedamangala villages of Puttur Taluk,
South Kanara District.

RESPECTED SIR,

WE, the residents of the above-mentioned 16 villages of Puttur Taluk, while extending to you a warm and hearty welcome into our midst, wish to avail of this memorable occasion to submit before you, the following among the most pressing needs of our locality and also some of our difficulties with a fervent hope that the same will meet with your sympathetic and favourable consideration.

The Honourable Minister may be aware that our sixteen villages bordering on the Darbe-Subramanya Road is a backward tract in the Malnad Area, and are mainly rice growing centre. This road is one of the three routes which connect Puttur Town to Subramanya which is a great pilgrim centre, and this is the direct and shortest route, the other two routes being via Kadaba and via Bellare.

This Darbe-Subramanya road has been an important District Board Road and was marked out for development, but unfortunately the other two routes have since been improved and developed, while this route has been utterly neglected. The

Superintending Engineer (H) IV Circle Coimbatore in his letter Ref.C.No.D3/2537/50 dated 18-5-1950 had recommended to the Chief Engineer (Highways) Madras, that as the then Public Works Minister The Honourable Sri Bhakthavathsalam had instructed him that the cause-ways on the Darbe-Subramanya Road should be pushed through so as to make it an all weather road and that the work should be taken up immediately. But unfortunately it was put off indefinitely and other works were taken on hand.

We beg to bring to your kind notice that for six months in the year during the rainy season, i.e. from June to December, on account of the unbridged Sarve River in 7/1 and other smaller streams such as Bedrala stream in 1/6, Kaipangala Stream in 4/6, Chapchalla Stream in 9/5, Baithadka Stream in 13/5, Kaniyur Stream in 15/2, Punachatham Stream in 15/5 and Bobbeker Stream in 15/7 the road communicates to Puttur and Subramanya side are cut off and these villages are practically isolated from the rest of the Malnad Area. There is not a single Bus Service in this route during the rainy season. Residents of these villages find it impossible to go to Puttur or Panja and Subramanya for Medical Relief during the rainy season; similarly there is difficulty in reaching Veterinary Relief to these villages. Although there are three Post Offices opened recently in this route at Narimogar, Savanur and Bobbeker, these Postal communications are automatically closed during rainy season. School children also find it difficult to attend Schools ~~taxation~~ during rainy season. Agriculturists from those villages have no facilities to market their agricultural commodities for want of proper road communications during the rainy season. The above are some of the difficulties and problems of the residents of these villages which

Wm

7

A

have not been tackled by the Government. Hence it is the dire necessity of these interior villages to make this Darbe-Subramanya Road an all-weather road, by putting up causeways to all these Streams enroute and also construct a bridge for Sarve River, if a causeway is not feasible. These difficulties of the residents of these 16 villages have been brought to the notice of every Honourable Minister for Public Works from time to time, but our representations so far was a cry in the wilderness, and our legitimate grievances have remained unredressed.

We also commenced the single-handed adventure of Sri Parthaje Venkatramana Bhat in taking up the huge work of putting up a dam across the Sarve River, in the interest of Grow More Food Campaign, but the unsympathetic attitude of the Government, in not even granting a Government Loan to him is deplored by one and all of us.

X
F
R

There is a big irrigation tank called "Kanchikara Kere" in S.No. 2/1 of Savnur village situated in Government land, which if improved would irrigate double the area of cultivable land, and yield at least 500 bags of rice more, and go a long way in the Grow More Food Campaign of the Government.

The above humble representations of these poor villagers may be sympathetically considered by the Honourable Minister and immediate action taken and our grievances redressed.

We once again thank the Honourable Minister for favouring us with his kind visit and condescended to our humble representations.

From K. Venkataramana Gounder
THE OFFICE OF KUKKE
Sri Subrahmanya Temple,
SUBRAHMANYA, S. K.

My dear Honble Sri. Rangar Reddy

46539 I heartily thank you for fulfilling the loan programme of the Madras which you were kind enough to undertake at my instance. I hope you will kindly excuse me for the trouble I have given you.

✓ It was gratifying to note that you have been fully impressed with the problem of my constituency. I wish you go through the memorandum presented by me while in Subrahmanya. In the said memorandum, specific suggestions have been made. I venture to appeal to you, that, Darbe - Subrahmanya road by which we proceeded to Subrahmanya, is the most important road in the larger interest

14/5

of the public of Mahad, since it ~~seems~~ takes
the central course in the taluk and in case
works of bridges and causeways are taken up
in that road it will be really a boon to the people
and you will have done highly meritorious service
to the people. It may also be remembered that
^{will your predecessor in office, Sri. Bhakthavatsalam}
^{probably} did favour the said road being taken up,
and this is indicated in the memorandum presented
by the public in Savanur, but, unfortunately
priority was given to a less important road.
I do hope, therefore, you will kindly make up
your mind to order accordingly. The costs
may exceed a lakh or two. But, the
argument against spending so much in a
particular area may not be tenable in
view of the fact that the State has not
bestowed its attention on these parts for the
last one or two centuries -

It is unnecessary to add more as you are
personally aware of the question -

Thanking you, Yours sincerely,
K. S. S. S. S. S.
